HONGRONS, MARCH 13TH, 1882.

Ar the meeting of the Legislative Council on the 7th February a series of despatches were laid on the table, but they were not circulated amongst Members of Council until the 9th instant, more than a month having thus been allowed to elapse. The only conceivable reason for this delay is that - their contents should not be known until after Sir John Pope Hennessy had left th · Colony. Hearing incidentally on the 10th that a copy might be supplied to this journal. On Saturday we received the following

" No. 358. "Colonial Secretary's Office,
"Hongkong, 11th March, 1832. "Sir,-In reply to your letter of 10th March, reis. tive to the furnishing to you of certain despatches hid on the Council table, I have the honour, by direction of the Administrator, to say that His Excellency regrets his inability to comply with your request.—I have the honour to be, Sir, your most obedient servent. "W. M. DEANE, Acting Colonial Secretary."

reply—

The moment the dispatches were laid on the table they became public property and ought to have been immediately open to the imprection of the reporters. In attempting now to keep the dispatches back, except from the members of Council, the Administrator has been guilty of a grave irregularity. All - be-papers laid on the table of the House of Commons immediately become public property, the Irish Land Act. and Sir John Pope Hennessy has repeat- THE IMMIGRATION OF CHINESE INTO edly said that the procedure in the Legisla, tive Council of Hongkong must be governed by the precedents supplied by that House-

It ordinary course the papers ought to have appeared in Saturday's Gazette, but they are not to be found there. It may be remarked that it was by Lord Krm-BEHLEY'S express command that the papers

were laid on the table, and if what we hear be true, they amount to little less than a severe reprimend of the Governor The attempt of the Administrator to keep them as dark as possible certainly gives a strong colour of probability to this, but in scenery, but most of the principals are the absence of the papers themselves we refrain from comment for the present.

The following notification appears in Guzzite:—The Governor has been pleased to grant four months' vacation leave and four months' leave of absence on balf pay from this date to Mr. Alfred Lister, Postmaster General and Collector of Stamp Revenue. Consequent on Mr. Alfred Lister's departure on leave. His Excellency has made the following appointments :- Mr. Samuel Barff, to be Acting Postant of the Supreme Court : Mr. J. Taken in connection with the telegram recently Pope Hennesey, the following paragraph is of interest :- "The Morning Post says that the services rendered by Sir Samuel Rowe, K.C.M.G., in settling the difficulties with the Ashantees. without having recourse to a second war are likely to be rewarded by his transfer to the governorship of a more important colony at an early opportunity; and in the event of Governor Kortright relinquishing the Governorship of British Guiana, which he has held since 1877, Sir Samuel Rowe will prolably be his successor." It is not altogether unlikely that either Mr. Kort. right or Sir Samuel Rows may be transferred to Hongkong. The following is the record of Mr. Kortright's services in the Colonial Office List .—"Kortright, Cornelius H., C.M.G. (1877). -Appointed a local magistrate at the Bahamas 19th February, 1849; president administering the government of the Virgin Islands, 1854 lient.-governor of Grenads. The following notice of the oarcer of Sir Samuel Rowe, K.C.M.G., who is a Surgeon-major in the army, is taken from the same authority :-- "Engaged on the West Coast of Africa since 1862, and as medical officer and chief of the staff with Sir J. pany gave their first performance in this Colony. There was a good house, and His Excellency the Administrator with the Acting Colonial Secretary and Mrs. Deane were among those present. By reports received from Shanghai, we were led to expect the Company would prove well up to the mark, and the performance of Saturday amply justified our auticipations. . In common with preceding companies, this one labours under the disadvantage of possessing no chorus, and is compelled to make shift a good deal for good artists and possess voices of great power. The Opera produced, Verdi's "It last prize giving at the school, and although ! ST. JOSEPH'S COLLEGE PRIZE DISTRIBUTION. The annual distribution of prizes to the pupils ttending this school took place at the Cathol Cercle. Pottinger-street on Saturday afternoon. The boys were there in full force, and there was also a large attendance of ladies and gentlemen interested in the College. His Excellency the Administrator was present to distribute the prizes. That room reminded the rev. gentleman of what house, Mrs. Somerset, and Mrs. Gelsten, and only that, and the adjoining rooms contained it. The number of pupils was then about 80, but since then they had gained in numbers to 100. then to 200, and now the Superior of the Christian Brothers informed him there were no less than 256 boys in the school. As to the efficiency of the teaching of the school it was not for him to speak on that point. It was enough to say that the teachers were the Christian Brothers, for their fame was widespread. Last year the instruction of the school had laboured under great disadvantages, owing to its being located in mat-sheds, and also because of their having had to shift from one place to auother. Notwithstanding all these disadvantages. out of 163 boys who presented themselves for examination 158 passed, only 5 failing, showing a percentage of 97 per cent. During the year 24 boys left the school, and almost all found situaions. In the new college it was in contemplation o introduce a new class for those boys who had passed all the estandards, so as to give them's righereducation, and thus prepare them thoroughy for situations. As to only 163 boys out of as the ceremony was necessarily a long one, on 256 presenting themselves for examination, there account of the number of awards, it was varied was this reason for it. Some of the boys only joined during the year, and of course they could not attend 200 days, the unmber required for the many reasons, so that the required attendance of 200) days was a great stumbling block. It was found in Hongkong very difficult to get boys to attend 200 days in the year, the rains in summer making it impossible for children to attend, and there was of course sickness to prevent attend-If the number of days could be reduced ertainly more boys could be presented without danger whatever to their instruction, for they could be put up and massed though they had not attended 200 times. As to the peuppiary matters of the school, he (the rev. father) might say that if they had more funds, they would be able to do more good. He was asked by an authority the other day whether if the grant-in-aid were increased it would be possible to reduce the aphool fees, and his quawer was that there was no necessity for reducing the scale of fees, as no one had refused to E. money. They not only gave the boys books, Mr. C. P. Chater. but in many cases, they gave them shoes to come to school in. (Applause.) Last year the kight Rev. Bishop spoke of the new poor school started called the bare-footed school. He was glad to their most sanguine anticipations. Last year he had patitioned Government to have a grant t would be better to put it under the grant-inaid. This suggestion was adopted, the school was examined, and they would soon see in the Gazette that that examination passed off very well. Not only was that school put under the grant-in-

aid scheme, but the other schools they had inthe Colony were also under that scheme-the Pereira, for Reading, inkstand, presented by the Chinese school they had in the Cathedral, the mixed School in Wanchai, and that of St. Joseph's were all brought under the grant-in-aid of a Committee of Inquiry into the working of scheme, and the examinations had passed off very well (applause). The rev. gentleman said it was his duty to thank the Government for the liberal way in which the grant-in-aid scheme had been administered. No doubt by receiving more money more good could be done, as the money received from the grant-in-aid was soon

exhausted. He had now only to thank His Ex- J. J. Paule, for Rending, pocket book, presented by a Fuk Choy, for Arithmetic, Mathematical box of fa. trifles. Perhaps as the result of this, an idea cellency and the ladies and gentlemen present for their attendance and liberal support, and would call upon His Excellency to distribute On Saturday night the Italian Opera Com- the prizes. (Applance).

His Excellency the ADMINISTRATOR said-Tather Burghignoll, ladies and gentlemen, gives me great pleasure to attend here to day, a this anniversary of the St. Joseph's College, for the purpose of distributing the prizes. It is a ong time sluce I took an active part at a meeting of this description, and therefore, if I am guilty of any shortcomings, I hope you will excuse me. The fact of the matter is that the last time took part in an interesting ceremony like this, was a punil myself, and my place at the present time was filled by the worthy principal who was at the head of the school to which I belonged. Time rolls away very quickly, and it hardly seems so long, but it is nearly twenty-two years -within a few months-since. I attended at the have not been present at similar interesting coromonies since then, it has not been from any disinclination, for ever since I was at school I have belonged, and in the cause of education. When the Rev. Father Barghigneli was kind enough to invite me to attend to day. I thought it only ight to make ogrtain inquiries - with regard the result of the examination held in this school I was well acquainted with the school itself having been in this Colony for nearly twenty years and I remember it when it was St. Savious's P. school, which, as the Rev. Father has already said, began in these two rooms. I also recollect the arrival of the Christian Brothers, and the removal of the school afterwards. I hope that the new school, the foundation of which was laid by our M Xavivi, for General Improvement, pen-wiper, pre Governor Sir John Pape Hennessy, will soon! be in a position to receive its pupils (Applause) A. Horwitz, for General Improvement, a pen-wiper, The Christian Brothers were kind enough to presented by Director.

I may say, however, that I called upon the Government Inspector of Schools to give me a few facts with to know her part too well, and could hardly on regard to the last examination, and I think it Jacinto Him Jap, for General Improvement, inketand some occasions play up to the others. Not only was the part figures, but these figures are hard facts which it is difficult to controvert, and I am happy to say that on this occasion as well as on others they have been extremely favourable towards St. Joseph's College and they exhibit the great pains which the Christian Brothers are always known. to bestow, and the success which attends their effortsin the sphools under their charge. (Applause) St. Joseph's College, as you know, gives tuition to both Portuguese and Chinese pupils, and find in comparing the year 1880 with 1881 that the percentage of passes gained amongst the Chinese boys last year is a trifle less than in 1880;

but amongst the Portuguese boys the number who passed under the grant-in aid was greatly u excess of the year before. There was a slight fulling off in the results of teaching Chinese boys. but there were most satisfactory results L. Barretto, for Arithmetic and Grammar, a gold ponwith regard to the Portuguese. Out of 140 boys only four failed in more than one subject. With regard to the attendance of the boys, this was very satisfactory according to the report of the Inspector of Schools. He says that the numbers enrolled in 1880 was 288 and in 1881 281; but although there were fewer enrolled in 1881 than in 1880 the average daily attendance amongst the Chinese alone was 4.68 more than in 1880, and amongst the Portuguese, 21.33, which I think is highly satisfactory. I had a conversation with the Rev. Father, when he called upon me the other day, about the required number of 200 attendances, and it really seems that there ought to be some alteration made. In comparison with the average number of attendances in two or three Schools in the Colony. I find that in the St. Joseph's, Chinese division. there were 203 attendances on working days; St.

Jeseph's, Portuguese division, the same number; the Victoria School, Boys-and Girls, 263; the Hongkong Public School 250; and the Government Central School 247. Therefore I think that St. Joseph's College with its 203 working i days has done very well in passing so many of its pupils through 'the standard. (Applause). But these 200 days I found did not include Sundays, and it appears that on Sundays the majority! of the pupils attend school for the purpose of instruction, and I think that if the matter is represented again to the Scoretary of State, that !on counting Sundays a great difference will be made in the number of pupils passed. According to the rules of the present grant-in-aid scheme the Inspector is not allowed to examine those who do not come up to the standard of attendance, that is, they must have 200 attendances. But I believe that if the pupils were all examined, a great number who were unable to pass

the standard of 200 days would be able to pass the standard of the examiner. (Applause.) I bope that by next year something may be done to re-\$1,422; and for 1881 \$1,630, and I may say now that with one exception all the schools—the Roman Cathotic schools-are under the grant-inaid. The only one not under that scheme is the school conducted by the French Sisters where the children are really so small that we could bardly expect them to undergo any examination at all. I think, ladies and gentlemen, these are all the interesting particulars that I can give you with regard to this school. They have been furnished by the Inspector of Schools, and he gave a highly satisfactory report of this school. In its comparison with the other

echools of the Colony, seeing that Chinese is not taught in the school that Euglish is mainly taught, and that the pupils who attend are Chinese and Portuguese who have not the advantage when they are at home of hearing English spoken and accustoming themselves to the language like the boys of other schools, like the Hongkong Public School and others, I think the results are most satisfactory, and I have much pleasure in congratulating the Christian Brothers on the state of the school. I will now i distribute the prizes. His Excellency then distributed the prizes, and

with some music. Mr. HUNG HING CHAN on receiving his prize thanked His Excellency on behalf of himself and phodentes for his kindness in coming there to present the prizes, and also tendered the thanks of the pupils to the donors of the prizes... His Excellency then thanked the Rev. Father Burghigueli for providing them that entertainment. It had given him much pleasure to be present and distribute the prizes, and he thought the thanks of all were due to those ladies and gentlemen who had come forward so liberally to

give prizes. He only hoped the boys would derive as much pleasure from their prizes as be felt in distributing them. (Applause). The proceedings then terminated. The following is the prize list-

> THE POSTMASTER-GENERAL'S REPORT.

The following Annual Report from the Postmaster General is published in the Gazette:-General Post Office, Hougkong, 16th Februray, 1832. Sir.—I have the honour to report on the

British Postal Service in Hongkong and China 2.—Few persons who have had much to with the preparation of Reports, especially of anch as are drawn up in the mere course of routine, can, have avoided asking themselves whether these unnually recurring documents are of any use f ... and when they mainly consist of masses of tabulated figures, it may be doubted whether they are of such practical service as to compensate for the heavy expense of printing It is satisfactory therefore to consider that valuable additions to our Postal Service —Parcol Post with India and with Ceylon, and a Money Order system with India—have been instituted as direct consequences of the Report prepared in taken of the initiation of the India Money Order system to revise our Rates of Money Order Commission (adapting them to the decimal coinage of this Colony) and to assimilate those levied on charged on Imperial and Indian orders.

In view of the importance of the growing trade in sugar it pity-that the transmission of samples cannot be arranged, but it is impossible not to defer to the larger experience of the London Office which 6.—The trouble and delay caused by the large | approximate I averages for the year :-numbers of short-paid newspapers alluded to in ast year's Report continued until the London Office out the knot by sending them all out by private ship. They still arrive (but now as fully paid) in considerable quantities. All endeavours

to get at the senders and impress on them that route with the Homeword, this gives as nearly newspaper Postage from the United Kingdom to as possible thirty-six days as the average Mail China is Three-half-pence seemed to fail. 7.—This was perhaps partly owing to the idea which prevails that under the Postal Union the sums charged as postage must be the same in all countries. It is not so. The rules of the Postal Union prescribe limits which must not be exneeded, but within those limits there is a discretion, especially as to the rates on correspondence carried long distances over sea. Hence it is that a newspaper sent from London to China by mail is charged 13d., but in the reverse direction 1d. only. People out here wrote home and told their friends. The postage is 2 cents, that is to say a penny, and no amount of official statements | Swatow through this office. would convince the recipients of this information that it was incorrect.

8.—It was found necessary to put a stop to a practice which prevailed here of posting letters without any attempt to prepay them. senders were mostly clerks, and the reason for this bad habit would generally be found in the of the Convention of Paris. fact that the addresses in any given case postage would be charged instead of coming out material. Packet Prhin broke her shaft soon after leaving Sing more on he outward voyage. The mails were brought on here by the Deucation (Blue Funnel Line) reaching this Colony and Shanghai four days after the respective contract times. A further delay of two hours in the delivery of papers, &c., resulted at Shanghai, as there was not time to sort thom in this Office.

13.—In February last the Japanese packet Sumida Maru, which had on heard the French and English Mails for Kobe and the English Mail for Yokohama, broke a piston and had to put into Amoy in distress. After a good deal of telegraphing it was decided to send the mails on from Amoy to Shanghai, and thence through the instructions contained in your Circular of the Inland Sea. The Mitsu Bishi parket waited

The Agents frequently cannot tell to within 12 hours or so how soon their vessels will start. When the chance of catching other packets at Shanghai or Yokohama is added with a doubt whather the printed Time Table is being strictly observed, the problem of ton does become rather tangled. Difficult as it may be, however to point out the best route a day before, it is particularly easy to do so a week after, when all the possibilities have become certainties, a distinction perhaps somewhat overlooked by impatient expectants of the Mail, who fail to see why the Post Office could not be equally wise before the event. The rule of this Office has been No risks, and, failing the appointment of an Agent of the Japanese Post Office or communities to choose the routes for mails, it will

> be adhered to. 15.—General International Statistics for the settlement of accounts were taken in May last. They passed off smoothly and whacut any irregularity. The arrears in accounts alluded to in previous Reports have mostly disappeared as much so in fact as they ever will. It is not possible, under the Union system, to have accounts as closely up to date as when each month's transactions were accounted for at the end of that month.

16.—A considerable increase is observed in this Department last year. Advantage has been the corresponde ce for Union Countries (other than the United States) forwarded to Sun Francisco for distribution. Sin.—I have had the honour to receive your letter No. 144,306 of September-6th on the subject of certain samples of Sugar forwarded from Before issuing a notice to foreign residents in China prohibiting the sending of samples of sugar, however packed, I venture respectfully to ask your favourable consideration of the question whether sugar, when packed in tio. really does contravece Article V. General Post Office, London,

The Department has carefully reconsidered this question, but it can so no reason for altering its opinion that the transmission of sugar from the correspondence.

It is possible, no deabt, that samples of sugar may sometimes pass through the post without injurious results; but, on the other hand, it is the experience of the Officers here that such samples frequently arrive in an almost liquid condition, and it is not found that sufficient security is afforded by packing them in the way you suggest as even Tin Boxes are liable to be outshed to a sufficient extent to allow of the moisture exuding and damaging the correspon-

dence. Packets in such a condition were received here from Batavia on several occasions last year—causing considerable damage—and it was found necessary to remonstrate strongly with fine weather throughout the passage. the Batavian Post Office, through the Director

of Posts at The Hagne. to prevent the transmission of sugar samples to man-of-war under sail, heading to the Westward.

I may add that, in the view of the Department the foregoing objections apply equally to the transmission of scap and candles, both of which articles are described as admissible in the extract from the Local Postal Guide which you enclosed. I am. Sir.

Your obedient Servant. (Signed) G. HARDY. The Postmaster General, Hongkong. (B.) Mail departure on Monday.

General Post Office, London, 7th April, 1881 SIR. -I have received your letter of the 15th February last, in which, whilst acknowledging the receipt of a supply of copies of the Time Table of the India and China Mail Packet Services for the present year, you call attention to been fixed for the departure of the homoword

The Postmaster General is sorry for the inconvenience thus conssioned to the community of Hongkong, but he does not at present see any remedy for it. In arranging a service like that of the combined India, China and Australia Mails, all in connection at Suez with a single line to Brindisi, it is obviously not possible t suit the convenience of every place served. that can be done is to make the best general ar-

Last year it was found that there was not sufficient interval between the arrival of the India Mail in England and the return Mail, and great inconvenience was experienced here in consequence. In order to remove this inconvenience arrangements were concerted, after much deliberation between the India Office and this Department, for bringing the Mails into of the Kingdom to receive letters and answer 1,500 pkgs. merchandise. them by the return Mail. This advantage is attained by the present Time

rangements which are practicable.

Table, and the arrangement promises to be suc-

. It will no doubt prove most acceptable to the Mercantile and other interests connected with India and China, and the Postmaster General would be very relactant to make any change which would interfere with the scheme. +I am. (Signed) EDW. H. HEA. The Postmaster General, Hongkong.
